## **DARKNESS TO LIGHT: PROTECTING CHILDREN DURING A CRISIS**

**We often develop strategies that help to prevent child sexual abuse under our existing circumstances. But what happens if those circumstances change?**

We need to be prepared to continue protecting kids to the best of our ability under any circumstances. The *Protecting Children During a Crisis* online training is designed to help you navigate through the unusual circumstances you might face during times of crisis. This change is any situation where you need to modify the steps you take to protect your children because of a situation that is out of your control. This training will help you consider your current strategies, help you identify the new situation, and help you change your strategy.

### **WHAT ARE THE OUTCOMES?**

In this training, we will help you:

- \* Determine potential changes that could disrupt your existing daily life, resulting in new situations that will pose new challenges in prevention.
- \* Identify which prevention strategies in the 5 Steps to Protecting Children™ will likely change or could be heightened based on an existing or potential crisis in your own life.
- \* Develop personalized strategies to use when potential crisis situations become a reality.

### **TRAINING INFORMATION:**

Training is 30 minutes. It is free and can be taken at any time.
